

**WE'VE GOT YOU  
COVERED!**

**Tama+** 

**Crop Packaging Products**

**“ They know what I need,  
because they’re farmers too.**

Tama has a unique mix of agricultural experience and manufacturing expertise. Tama’s products for crop packaging are made to run reliably and consistently – every time. As farmers ourselves, we understand why this is critical for you.

Our ability to identify and support the needs of our customers have enabled Tama to become the world’s leading supplier of Netwraps and Twines.

## **YOUR SUCCESS IS OUR GOAL**

We aim to bring a benefit to your business, increase your baler output and provide assistance if needed.

Tama Assist is your dedicated support network before, during and after the season.

**WE’VE GOT YOU COVERED.**

- In all balers
- In all conditions

# TamaTwine+

## Maximize Your Baling Performance!

### Large Square Bales

TamaTwine+ for Large Square Bales comes in a range of products designed to suit your needs. Based on the colour scale below, you can choose either the strongest twine for your most demanding baling conditions, or opt for the longest pack length. Whichever twine you choose, you can count on high performance that will not let you down.

#### HD Extra

Pack length 2600m

Specially designed for use in balers in the 'Extra' high-density sector, for making extremely dense bales, or when baling in extreme conditions – high temperatures, low humidity.

#### LSB Power

Two-Spool pack length 2600m

or

#### LSB Power XL

Single Super Size pack length 1650m

The best performing options for all crops and balers where higher density is required. Use these for silage and for higher density hay and straw bales.

Resistance and performance as Type 130

#### Big Spool Type 72

Pack length 9,600ft

A standard big bale twine, suitable for use in all crops and in normal baling conditions.

#### Big Spool Type 86

Pack length 10,600ft

A twine suitable for use in any big baler, when only the lowest bale density is required. Gives the maximum spool length.

### TamaTwine+ Features:

LONGER LENGTH PACKS => LESS CHANGES => HIGHER OUTPUT  
Extra pack length for less spool changes, less waste and higher efficiency.

Unrivalled knot performance, flexible and strong for 100% reliable tight knots on your bales.

Uniform spool shape to ensure trouble-free running in the baler.

The only Big Baler twine range fully validated by ALL THE MAJOR BALER PRODUCERS.

Reliable, Non-stop baling

#### Small Square Bales

A full range of conventional twines for small square straw and hay baling.

#### Round Bales

The TamaTwine+ range includes premium fine twine for round bales.

**Michael Dunning,  
Thomastown, Ballydangan,  
Co Westmeath, Ireland**

“ After 20 years of baling and trying most brands Tama has been the most consistent and favoured Netwrap products by the guy on the baler and the farmer.

The new Tamanet+ is another level of consistency and reliability that is unrivalled by any other brand.

**Jeppe Bang Jensen,  
Morten Bang Jensen Farm,  
Denmark**

“ TamaTwine+ have very good strength and it's very thin so it's make a good knot in the baler. It works great and can take more loads compare to the other twines I've tried.
